

School Administration and Services

2005 saw several changes in the School's Administration and Services staff. Ms Gillian Harman took over as Human Resources Officer from Ms Julia Peric, who retired from the School in June 2005. Ms Lyndell Paseka was appointed as School Services Administrator to provide assistance to the School Facilities and Services Manager, Mr Kevin Lonsdale. New staff include Ms Tina Lu who joined the School as Finance Officer in May, Ms Ana Vukoja, Student Development Officer, in August and Ms Sherryl Kluver, Accounts/Travel Officer in October. Ms Mariana Ng, Assistant Manager, Finance, returned to the School after nearly a year's leave in October. Mr Van Tran of the Electronics Workshop retired in December. Ms Martina Landsmann returned from her long-term secondment to the Corporate Information Services in July with in-depth knowledge of the new research management database ARIES. Ms Liz Micallef, who was seconded from the Faculty of Arts to the Business Office transferred to the Research School of Astronomy and Astrophysics while Ms Mariana Milin secured a transfer to another part of the University.

The extension and refurbishment project of the Le Couteur Building commenced in 2005 and resulted in the relocation of the majority of physics-related periodicals and books from the Physics Library to other on-campus libraries. The School is grateful to Ms Annette Styles who provided invaluable service during her appointment as School Librarian and has since then moved to another on-campus library.

Three ARC funded research networks commenced in 2005. Ms Helen McMartin was appointed the Network Manager of the Australian Nanotechnology Network. Ms Belinda Barbour was appointed the Network Manager for the Australian Research Network for Advanced Materials, while an appointment for the Complex Open Systems Research Network had not been finalised in 2005.

The Business Office strived to extend high levels of service on a sustained basis to grant holders.

School Administration and Services Staff

School Resources Manager

Rana Ganguly, B. Engg (Mech), MBA, FAIM

School Facilities and Services Manager

Kevin Lonsdale, Assoc. Dip. Mech. Eng DDIAE, B. Tech USQ, PGCertCnflctMgt Macq
