

Weekly Bulletin

Research School of Physical Sciences & Engineering

Volume 34 Number 13
4 – 10 April 2008

FROM THE DIRECTOR'S OFFICE

Congratulations to Professor Rod Boswell on his election as a Fellow of the Australian Academy of Science (*distinguished for his work on basic and applied plasma physics*).

STAFF MOVEMENTS

Dr Andrew Stuchbery, Department of Nuclear Physics, left on Tuesday 1 April for collaborative experiments at GANIL, Caen, France. Dr Stuchbery will return on 16 April.

Dr Nikolai Lobanov, Department of Nuclear Physics, will be presenting a talk at the Accelerator Science Workshop 2008, held in Melbourne from 7 - 8 April.

IMPROVE YOUR OFFICE ENVIRONMENT

All the Occupational Strains Liaison Officers below are trained to perform assessments of your office workstation environment, either to improve your comfort or more importantly to advise on the prevention of Occupational Overuse Syndrome (OSS). Early symptoms include discomfort or persistent pain in muscles, tendons and other soft tissues, most commonly affecting the upper limbs, shoulder regions and the neck. Early and intermediate stages can be reversed with early intervention. If you would like an assessment or feel you are experiencing symptoms (however slight) please contact one of the School's OSLO reps:

Caroline Ashlin 52943

Belinda Barbour 54244

Deborah Bordeau 52403

Margo Davies 52847

Gillian Harman 52420

Kathy Hicks 53423

Janet James 53033

Lyndell Paseka 51576
