# **Weekly Bulletin**

**Research School of Physical Sciences & Engineering**

**Volume 34 Number 27**

**11 – 17 July 2008**

## **SCHOOL SEMINARS**

### **LPC Seminar**

**Tuesday 15 July 2008**

11.00am

“Burst Femtosecond Laser Processing of 3D  
Photonic and Optofluidic Microsystem”

by Professor Peter Herman

Department of Electrical and Computer  
Engineering and the Institute for Optical Sciences,  
University of Toronto, Canada

Link Building Seminar Room

## **STAFF MOVEMENTS**

Dr Hua Xia, Plasma Research Laboratory, will be attending the Summer School on Geophysical Turbulence from 14 July - 1 August 2008 at the National Center for Atmospheric Research (NCAR), Boulder, Colorado in the United States.

## **VISITORS**

The Nonlinear Physics Centre would like to welcome Dr Marc Sciamanna, Dr Delphine Wolfersberger, and Mr Nicholas Marsal, from Supélec, Metz, France. They will be visiting from 11 - 26 July and working with Dr Dragomir Neshev on nonlinear beam control in periodic waveguides and cavities, supported by the FAST program.
