

# Weekly Bulletin

Research School of Physical Sciences & Engineering

Volume 34 Number 6  
15 – 21 February 2008

## SCHOOL SEMINARS

**Wednesday 20 February 2008**

11.00am

“Spatially-resolved Photoluminescence: Imaging Semiconductor Nanowires”

by Howard E. Jackson, Department of Physics  
University of Cincinnati, Cincinnati, Ohio USA

Seminar Room, Link Building, RSPHysSE

All Welcome

**Wednesday 27 February 2008**

2.00pm

**IEEE ACT Chapter of Lasers and Electro-Optics Society and Electron Devices Society and Research School of Physical Sciences and Engineering, ANU**

“Controlling Light by Photonic Crystals”

by Dr Masaya Notomi, IEEE LEOS Distinguished  
Lecturer NTT Basic Research Laboratories, Japan

Seminar Room, Link Building, RSPHysSE

All Welcome

## STAFF MOVEMENTS

### School Facilities and Services Changes

Graeme Cornish will be acting as the Facilities and Services Manager until July, while Kevin is on leave. He will only be working mornings in this role so if you have any queries please see him then. He can be contacted on extension 53062 or the new email address :- [Facilities.Manager@rsphysse.anu.edu.au](mailto:Facilities.Manager@rsphysse.anu.edu.au)

Can all requests for work by Joinery or the Electrician, please be made utilising the online request system, accessible via the School web page as the first point of contact. Please contact Lyndell Paseka on 51576 or [Lyndell.Paseka@anu.edu.au](mailto:Lyndell.Paseka@anu.edu.au) for assistance with this system.

This system has been available for a while for the Electrician and is now implemented for Joinery. In

the past there have also been a number of issues with prioritising work and we wish to provide a better arrangement.

If everyone uses this system, all work can be done in a timely, scheduled manner and the staff involved have much fewer interruptions during the working day. Thank you.
