

Weekly Bulletin

Research School of Physics and Engineering

Volume 36 Number 20

28 May – 3 June 2010

SCHOOL SEMINAR PROGRAM

Thursday 3 June 2010

4.00pm

"Plasma is not just about blood - Plasma Medicine"

by Dr Christian Sarra-Bournet

Plasma Research Laboratory

Leonard Huxley Lecture Theatre

Drinks and light refreshments will be provided in the RSPSE Link Tea Room after the Seminar

ALL WELCOME

SCHOOL SEMINARS

EME SEMINAR

Wednesday 2 June 2010

11.00am

"Opportunities for Neutron Scattering Science at the new OPAL Research Reactor"

by Dr Frank Klose, Bragg Institute, Australian Nuclear Science and Technology Organisation ANSTO, Menai, Australia

Link Building Seminar Room, Oliphant Building

Nonlinear Physics Center Seminar

Final PHD Seminar

Wednesday 2 June 2010

2.00pm

"Directed Transport Without Net Bias in Physics and Biology"

by Mr Steven Lade, PhD Student, Nonlinear Physics Centre

Link Building Seminar Room, Oliphant Building

All welcome

STAFF MOVEMENTS

Associate Professor Christine Charles will be overseas from 26 April – 4 June to attend the 2010 Space Propulsion conference in Spain and attend meetings with EADS-ASTRIUM in Paris and the Surrey Space Center in the UK. Christine has also been awarded a 1 month Visiting Professorship at the University of Orleans for collaborative

research on hydrogen fuel cells and on plasma actuators.

Applied Maths welcomes Dr Sergey Lobov who has joined the Browitt Nanoparticle Laboratory with Ross Stephens. Sergey will be located in the Innovations Building Rm 1.03.

PHYSICS EDUCATION GROUP

On Friday 28 May the Physics Education Group will meet in the Conference Room from 4-5pm to overview the undergraduate program. All members of the RSPE community are encouraged to attend and participate in discussions about current and future physics education at ANU.
