

Weekly Bulletin

Research School of Physics and Engineering

Volume 36 Number 49
17 - 23 December 2010

FROM THE DIRECTOR'S OFFICE

Professor Jim Williams will be on annual leave during the first two weeks of January (returning Tuesday 18th) Professor Stephen Buckman will be acting during this time.

Mr Rana Ganguly will be on annual leave from Monday 20 December returning Monday 24 January. Graeme Cornish will be acting School Manager during most of that time and available in the case of an emergency during the Christmas New Year break. Graeme will be taking leave from 4th to 12 January during which time James Irwin will take the reigns.

BEST WISHES

I thank all members of the school for their great contributions to our success in 2010. Have a great Christmas and New Year. Best wishes, Jim

SCHOOL OHS - AFTER HOURS WORK

With the holiday period approaching, please note if you must work after hours, always advise a responsible person what you are doing and where you will be. Ideally two persons should be working in close proximity. As a general rule do not work alone in laboratories or workshops. No hazardous processes or equipment may be conducted or operated out of hours.

Please note that the First Aid Co-Coordinator will be Mr Ross Tranter from AMPL until February 2011.

STAFF MOVEMENTS

Professors Volker Werner (Yale University) and Steve Yates, Messrs Francisco Estevez and Benjamin Cride, (Department of Chemistry, University of Kentucky) are visiting the Department of Nuclear Physics until the 18 December to undertake an experiment on 76As using the Super-e and for collaborative work with Dr Tibor Kibedi, GAMMA group. Dr Liz Williams, CSIRO, took part in this experiment also, she was here 12 - 15 December.
