11 - 17 February 2011

SEMINARS

Theoretical Physics Seminar

Thursday 17 February 2011, 11:00-12:00

Le Couteur Seminar Room, LC.3.17

*(Super) Particles In An External Electromagnetic
Background. Non-central extensions of (Super)
Poincare algebra*

by Professor Joaquim Gomis

ECM, University of Barcelona, Spain

VISITORS

The Department of Theoretical Physics would like to welcome Professor Joaquim Gomis, ECM, University of Barcelona, who will be a visiting research fellow in the Department from 2 February - 10 April 2011. He will be conducting collaborative research with Professor Bouwknecht and other members of the department.

Mr Bo Esbensen from Technical University of Denmark is visiting Laser Physics Centre until 31 May 2011. Bo is working with Professor Wieslaw Krolikowski and can be contacted on ext 54611.

EDUCATION MATTERS

Please record your contributions to teaching this year. Examples include: lectures, tutorials, lab hours, and undergraduate student projects supervised or undergraduates mentored. This data will be collected and may be used in workload and funding models. The data collected last year was flawed, with some people not reporting contributions. Contact: craig.savage@anu.edu.au

SAFETY TRAINING COURSES

Ionizing Radiation Safety - 21 February

Chemical Safety - 23 February

Corrosive Substances Safety - 11 February

Enrol by emailing ohstraining@anu.edu.au
